WHO WE ARE

Knief & Co. – A step ahead in design, Creativity and production for tomorrow’s solutions

Knief & Co. is situated in Bremen / Germany and was founded in 1979. With regard to freestanding bathtubs, our family owned company has over 20 years experience in specialized acrylic as well as 10 years in solid surface production. Using only best raw materials, with our accumulated know-how and outstanding quality we are recognized as the market leader for acrylic freestanding bathtubs and solid surface architecture, fulfilling highest quality parameter and individual customer requirements.

WHAT WE DO

Innovativeness at highest quality standards is what our customers are seeking for. Therefore it is our ambition to perform as the extended workbench of our business partners. To guarantee the highest level of quality, all Knief & Co. collections are manufactured 100% exclusively in Europe. With reinforced premium co-molded Lucite® high quality sanitary acrylic and unique and advanced K | Stone® material and its specifically developed production technology, we not only fulfill manufacturing standards, we have set bench marks in the industry. We are making statements in perfection, providing best quality and unique and exclusive designs to meet any desire and / or request. Being a step a head in finding tomorrow’s solutions, being a qualified manufacturer for today’s requirements, that is our ambition and for what Knief & Co. has gained a lot of recognition in the market over the past years.
