Wood Plastic Composite

# DECKING

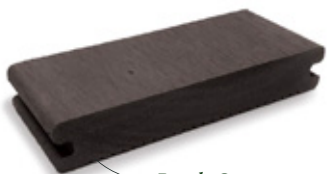

Composite decking (also called wood-plastic) is an alternative to timber. It is made with recycled plastic and wood. This type of decking is becoming more and more popular as it is eco-friendly in nature and helps to save forests as it can be used as an alternative to wood.

Facade Building

# SCREENING

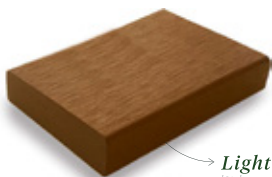

A façade or facade (/fəˈsɑːd / (About this soundlisten)) is generally one exterior side of a building, usually the front. It is a loan word from the French façade (pronounced [fasad]), which means "frontage" or "face".
